RT 2 Box 515
Stanly, VA 22851

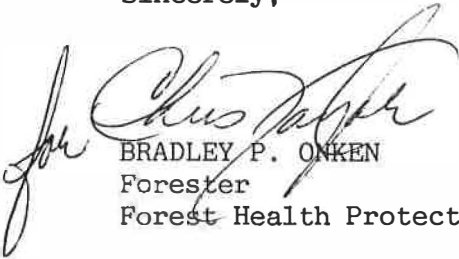

Dear Dorris:

As requested, I've enclosed a map of the 1991 gypsy moth defoliation. The egg mass survey results conducted this fall along the Appalachian Trail in Harper's Ferry National Historic Park indicate that defoliation will likely occur in this area in 1993.

I would suggest you call the Resource Manager for the park for information regarding past and future treatments near the trail. His name is Mr. Bill Hebb and he can be reached at (304) 535-6371.

Feel free to call me at (304) 285-1546 if I can be of further assistance.

Sincerely,

BRADLEY P. ONKEN
